PVC LAMINATE

 **RL 755**
LEAF PATTERN BROWN

Inspired from fabrics.
Introduced in PVC Laminates

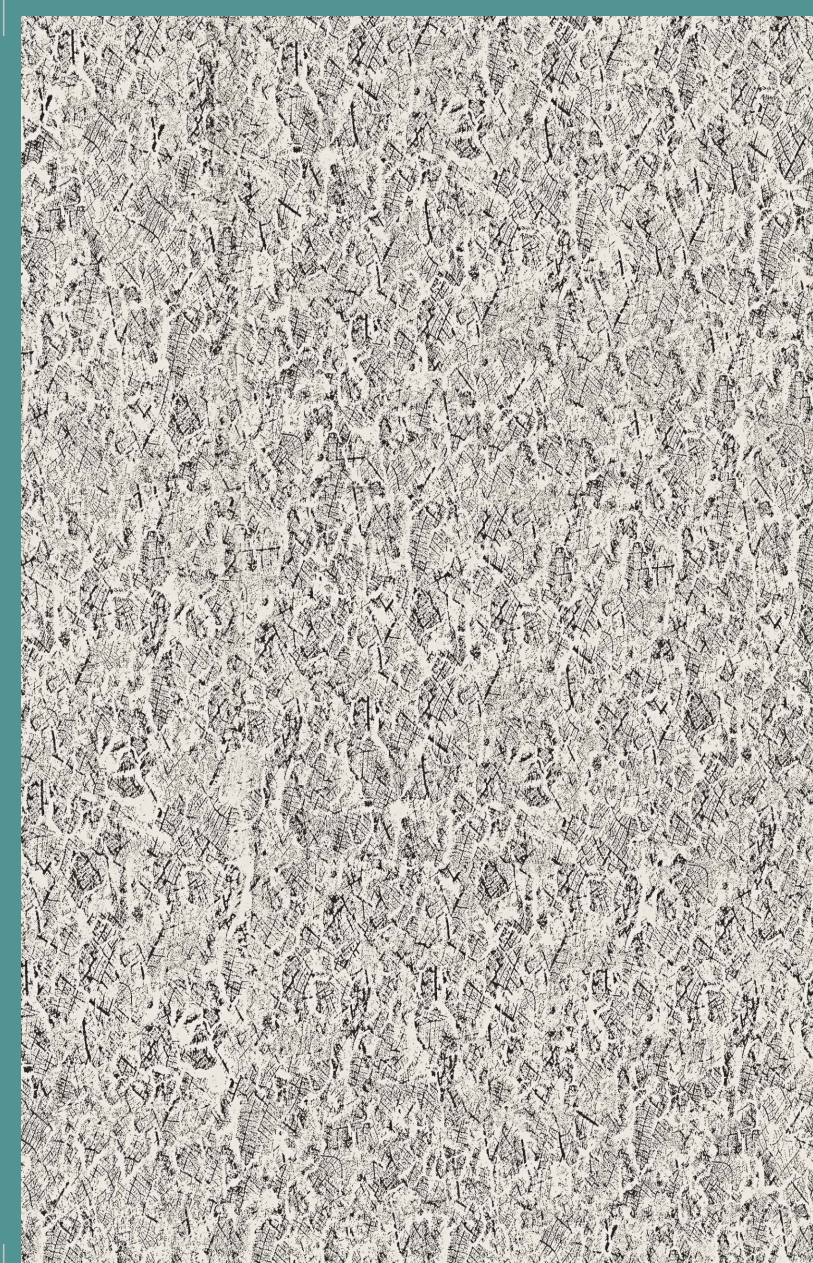

FABRIC SERIES

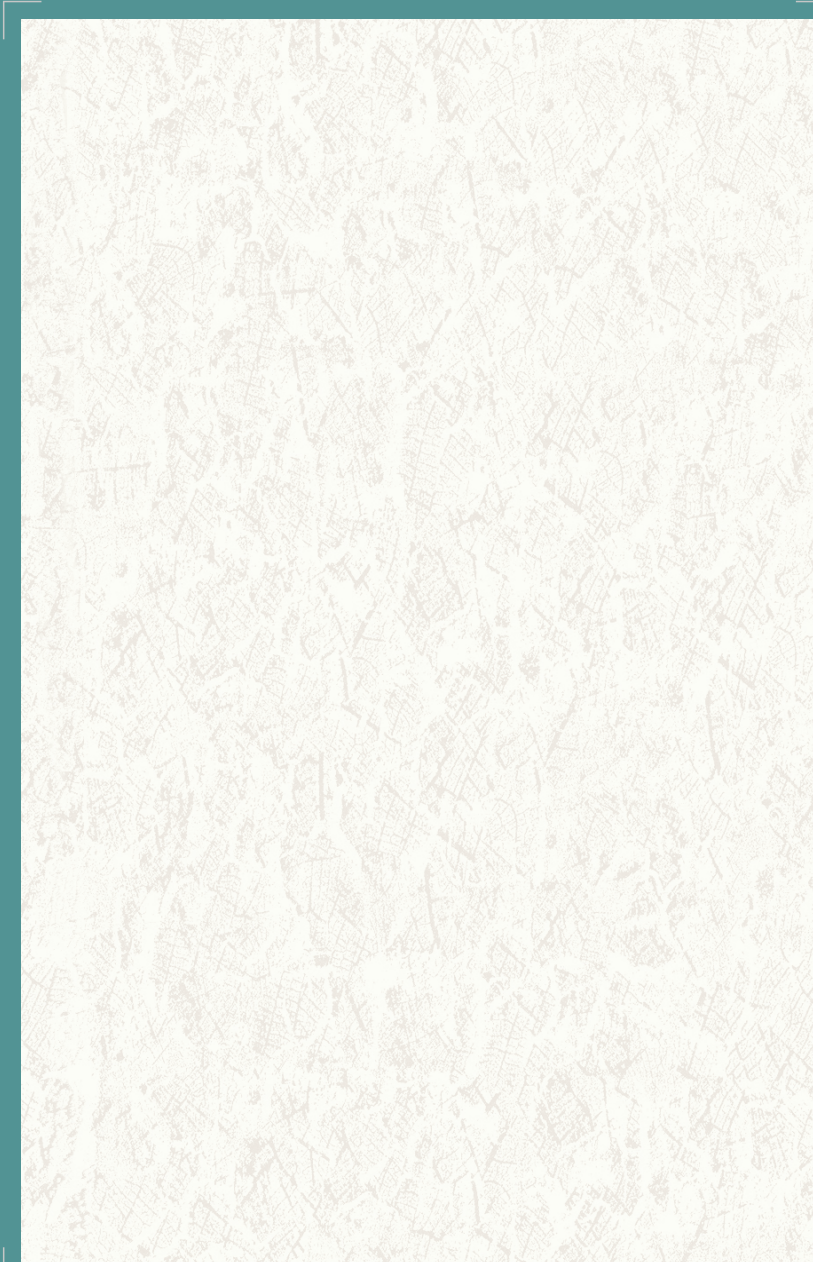

Blending wood and fabric can be quite a task but when both are together it makes camouflaging last! A lot of times we have noticed that interiors need to be mixed and matched and there are difficulties in wood being - just wood. With our fabric series laminates you get to mix your decor and furniture extremely well to create a matched or perhaps a contrast look and yet the texture is well coordinated throughout.

-  90° Bendable
-  Color Core
-  Water Proof
